

During the 2017 Run Barbados 5K race a highly unfortunate occurrence caused the runners to make a turn before reaching the final turnaround point. Following investigation and discussion with the Volunteer team who act as marshals on the course it was realised that a few unforeseen incidents led to a volunteer pointing the leaders of the race to turn off the race route before reaching the actual turnaround point. The section of the route that was omitted was measured following the race and this confirmed that the actual distance run by all of the runners was 4.43km. The order of finish stands as initially announced. On behalf of Run Barbados, we sincerely apologise for this mistake on the part of our team. Of course, a full review of the training & instructions received by all volunteers who direct runners on all of the routes will be conducted so as prevent this type of error from re-occurring. The Run Barbados team is extremely grateful to the almost 200 volunteers who take the time to help out at the event as marshals, at water stations, applying markings to the roads, giving out medals, assisting with race kit collection, providing manual back-up to the timing systems, and setting up at the Esplanade among other tasks.

Results for the Cave Shepherd Visa Credit Card 4.43 K. Dec 2, 2017.
